## A RECORD BREAKER.

New Pacing Machine Will Be Utilized at Saucer Track.

Max Peters, manager of the Salt Palace saucer, is negotiating with a Paris firm, through their New York representatives, for a new twelve horse-power motor, to be used in pacing races this summer. The firm claims that the speed of this motor can be regulated before going on the track, to travel a mile at a steady clip all the way from fifty-five seconds up. Two fiders occupy the seats, and do not pedal at all, but are needed to guide the machine. All Peters claims that with this machine the ricers can be tried out and classified according to their speed, and when a rider enters a certain class the machine will be set for that speed before the race starts, and it will be a case of ride for all that is in a man or get off the track. Mr. Peters is figuring to get away from team work on the track, and when he has made all his arrangements the riders will have their innings, and the result will be watched with interest. saucer, is negotiating with a Paris firm,

Manager Rippeto still insists that he is right in the matter, and stated he would refuse to play any more league games if Manager Bassett continues to play Romney and Smith. He says he will play them at any time, but not as a league team. Captain Bassett of the L. D. S. claims that the men under dispute are members of the L. D. S. basket ball team and as such are entitled to play, and thus the matter rests, awaiting the decision of the league officials.

"Now, I'm a newspaper man," the speaker continued, "and I want to say that if a man working for me would misquote and misrepresent any man as this reporter has misrepresented me, I would discharge him. The Salt Lake Herald printed the proceedings as they occurred, but the Tribune put words into my mouth that I did not say. The time has come when the reporters should report the proceedings of the house correctly or be barred from the privileges of the floor. The editor of the Tribune took the reporter's version of the proceedings and the editorial was the result."

Wanted a Commission.

After Glasmann had moved the adoption of the resolution, Smith secured recognition for a substitute. It was that a commission and the manner in which the house of commons is arranged, came up on a motion made by Mr. Crumpacker of Indiana to appropriate \$115,000 "for refurnishing and rearranging the hall of the house of representatives, including the removal of the individual desks of members and the hall in a manner that will be most convenient for the sessions of the house." "Inasmuch as I belong to the minority party which has had many such bouquets thrown at it by the Tribune," said D. H. Morris, "I move that the resolution be tabled." Glasmann, from his place on the floor, insisted that if the resolution was tabled the Smith motion would have to be tabled also.

"Then I withdraw my motion," shouted Smith.
